

Kid Pix4 Slideshows

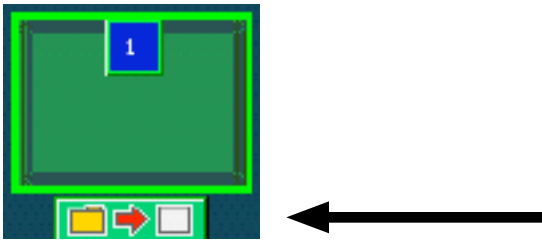

1. Create a number of pictures on Kid Pix and save to either the desktop or My Pictures folder.

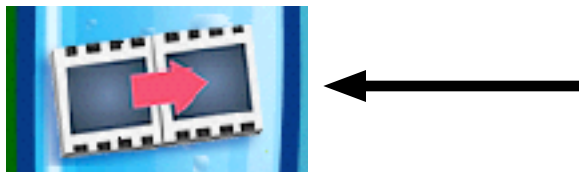

2. Click on the slideshow function.

3. Click on the folder underneath each slide and click on the appropriate picture. These can be rearranged by dropping and dragging into different orders.

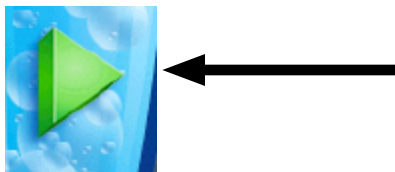

4. Click on the Transitions button.

5. Select the transition, sound, and length of slide, (default is 7 seconds). You can preview how the transitions will look.

6. Click on Play to watch your slideshow.

7. You can export your slideshow to Quicktime video, or keep it as a "Show to Go".
